Stay Home Photo Album

While she's been at home, Snowball has enjoyed playing games with her family. She takes her time thinking up words when she plays Scrabble.

Can you guess what else Snowball has enjoyed while she has been home? You're right! Reading! She loves books.

When the weather is nice she enjoys gardening. She is very happy that the lettuce and kale are growing so well because they are two of her favorite foods.

Snowball likes to be a helper so sometimes she brings food to the Little Free Pantry.

On some days she goes for a walk in the park to enjoy the lovely spring flowers.

When she must go shopping she makes sure to wear a mask to stay safe. Here she is buying carrots (another favorite food!) at the Shaker Square Farmer's Market.

On other days she may take a drive in her car.
