

OUT OF THIS WORLD

Explore the cosmos at
Shaker Library!

STARLAB Mobile Planetarium at Main Library

Experience STARLAB, an inflatable traveling planetarium that is “out of this world.” Crawl inside to learn about the stars, constellations, and Greek and African mythology. *Space is limited to 20 people per session.*

Stories Under the Stars - For All Ages

Learn the basics of astronomy and enjoy some great stories.

11-11:45 am Monday, February 19

3-3:45 pm Monday, February 19

4-4:45 pm Tuesday, February 20

Constellations and Mythology - For All Ages

Learn about the stars, constellations, and various mythologies.

1:30-2:15 pm Monday, February 19

7-7:45 pm Tuesday, February 20

Register in person, online, or by phone beginning two weeks before each program.

Cleveland Museum of Natural History

Science Café with Dr. Steven Hauck

Mercury and Beyond—How and Why We Explore the Planets

6:30-8:30 pm Monday, February 19 at Bertram Woods Branch

How did the planets in our solar system form? What are they made of? And why are they so different from one another? These are some of the questions that Shaker resident Dr. Steven A. Hauck, Professor of Planetary Geodynamics at Case Western Reserve University, will answer.

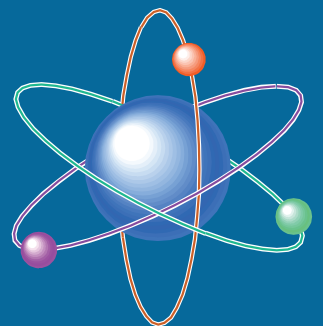

Dr. Hauck is a planetary scientist who studies the evolution of interiors and surfaces of the planets, including Earth. During his 15 years at CWRU, Dr. Hauck has authored and co-authored many scientific publications; served as a peer reviewer; mentored dozens of graduate students, and has been a featured speaker at many professional and public lectures. *No registration is required.*

STEAM KIDS: Fuzzy Constellations for Children in Grades 1-3 at Main Library

Recreate night-sky constellations using beads and pipe cleaners.

4:15-5:00 pm Thursday, February 22

Register in person, online, or by phone beginning February 8.

ASTRONOMY WEEK: FEBRUARY 19-23, 2018
